

A diagonal collage of four images runs from the top right to the bottom left. The top image shows a person in a white protective suit and mask pouring a yellow liquid from a container into a large metal bucket. The second image shows a large white wind turbine in a field. The third image shows a white commercial airplane on a tarmac. The bottom image shows a large blue liquid being poured from a container into a large metal bucket. The entire collage is framed by white, paint-like splatters.

OUR PRODUCTS

EPOXY RESINS

- Basic Liquid Resin
- Solvent Cut Resin
- Solid Epoxy Resins
- Cycloaliphatic Resins
- Multifunctional Resins
- Formulated Resins
- Bisphenol F Based Resins
- Epoxy Phenol Novolac Resins

EPOXY HARDENERS

- Polyamide Hardeners
- Cycloaliphatic Hardeners
- Aromatic Amines and Adducts
- Phenalkamine Hardeners
- Aliphatic Hardeners

REACTIVE DILUENT

- Aliphatic
(mono, di and trifunctional)
- Aromatic
(mono and difunctional)
- Cardanol-based Reactive Diluents

AMINES

- Ethylene Diamine (EDA)
- Diethylenetriamine (DETA)
- Triethylenetetramine (TETA)
- Tetraethylenepentamine (TEPA)

RAW MATERIALS FOR POWDER COATING

- Saturated Polyester Resin - Hybrids
- Saturated Polyester Resin - Pure
- Precipitated Barium Sulphate
- Flow agent
- TGIC
- Matt Hardener
- Benzoin

SILANE COUPLING AGENTS

NEO PENTYL GLYCOL

BIOCIDES

ADHESIVES

- Synthetic Rubber Adhesives
- Polyurathene Adhesives
- Sprayable Adhesives
- Water-Based Adhesives
